EMPLOYMENT HISTORY

Technical Product Owner, NextGen Healthcare
San Diego, California

Apr. 2016 – Present

Lead multiple Scrum teams in developing business cases for EHR improvements, gathering requirements (MVP and MMF), translate concepts into wireframes and mockups, built prototypes for usability testing, and directed development teams to solve complex usability problems by devising elegant solutions.

EHR Application Analyst / Supervisor, Monarch Healthcare (OptumCare - UnitedHealth Group)
Irvine, California

Jul. 2015 – Apr. 2016

Provided leadership to Implementation and Business Analysts for improvements to the NextGen EHR software by evaluating recommendations, the creation of action plans, development of EHR templates, and oversaw weekly deployments.

Integration Manager / HL7 Engineer, HealthFusion, Inc
Solana Beach, California

Jun. 2014 – Jun. 2015

As the Integration Manager, I accomplished department objectives by managing staff, planning and evaluating department activities, and implementing the integration of applications and solutions. Provided leadership for staff, clients, and vendors.

Senior Consultant, Object Health (Elevation Point), LLC
San Diego, California

Jul. 2011 – Mar. 2014

Healthcare consultant focused on privacy and security, electronic health record implementations, project management, and community health improvement projects.

Health Information Analyst, Clinicas de Salud del Pueblo, Inc
Brawley, California

Jun. 2010 – Jun. 2011

Full-time employment focused on project management, implementation and maintenance of NextGen EHR in a 1-year roll-out, population health management reporting and analysis, quality improvement, and community health improvements.

Reserve Firefighter / Emergency Medical Technician, Imperial County and City of Brawley
Imperial Valley, California

Jun. 2004 – Oct. 2010

Volunteer and paid Firefighter I / Emergency Medical Technician - Optional Scope. Ensured protection of life, property, and environment through fire suppression, prevention, and ambulatory emergency medical care.

COURSES

Agile Scrum Product Owner / Scrum Bootcamp, Construx

2017

Certification of User Experience Design, University of California, San Diego - Extension Center

2017 – 2018

Front End Web Development Certification, University of California, San Diego - Extension Center

2016 – 2017

Nationally Registered Emergency Medical Technician - Intermediate Optional Scope, Imperial Valley College

2007 – 2008

Firefighter Engineer / EMT, Imperial County Fire Department

2004 – 2006
